DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/26/05 has been entered.

Response to Amendment

2. The applicant's amendments, filed 10/26/2005, have been fully considered and reviewed by the examiner. The examiner notes the amendments to claims 1 and 47 with the addition of new claims 55-78. Claims 1-11, 41-42, 47, and 54-78 remain pending.

Response to Arguments

3. Applicant's arguments, filed 10/26/2005, with respect to 101 double patenting have been fully considered and are persuasive. The 101 double patenting rejection of claim 47 has been withdrawn.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided

- Application/Control Number: 10/666,025
- Art Unit: 1762

by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

- Authorization for this examiner's amendment was given in an interview with Mark Matkin on 11/21/2005.

The application has been amended as follows:

- IN THE CLAIMS,

Claim 1, lines 9-10, --and effective to avoid measurable formation of titanium silicide on the substrate during said first period of time-- is deleted.

- Claim 1, line 16, after "time being deposited ", -- directly-- is inserted.

- The amendment to claim 1 deletes a limitation to overcome a possible new matter rejection and place the application in better condition for allowance. The addition to the claim 1 is made to overcome the prior art where a layer exists between the conductively doped silicon layer and the deposited titanium silicide layer.

5. The following is an examiner's statement of reasons for allowance:

- The amendments to the claims distinguish over the prior art of record as discussed in the applicants reply dated 10/26/2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 1762

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
